

Industrial Pretreatment Program Fees

<u>Description</u>	<u>Measure</u>	<u>2022 Rates</u>
Baseline Monitoring Report Submission and Review	Each	\$25.00/report
90-Day Monitoring Period Fee ¹	Each	\$50.00/period
Industrial User Permit Writing Fee	Each	\$150.00/permit
Industrial User Permit Renewal Fee ²	Each	\$150.00/permit
Industrial User Permit Review or Revision Fee ³	Each	\$50.00/service
Industrial User Sampling and/or Inspection Visit Fee ⁴	Each	\$75.00/visit
Industrial Pretreatment Program Consultation Fee ⁵	Hourly	\$45.00/hour Environmental Compliance Coordinator \$45.00/hour Authorized Representative \$65.00/hour Superintendent
Industrial User Annual Report Fee ⁶	Each	\$200.00/report

¹Cost of labor associated with reviewing monthly 90-Day Compliance Reports.

²Cost of labor associated with review of permit on 3-year term and Baseline Monitoring Report submission and review.

³Cost of labor associated with reviewing and/or revising permit at non-domestic user's request. Fee will be charged for each service (e.g., if review leads to revision, two (2) \$50.00 fees will be charged).

⁴Includes sending of laboratory results and revised inspection form to non-domestic user. Fee will only be charged if it is determined that further steps are required beyond inspection. For example, if GRSD Sewer Authority personnel were to conduct an inspection due to suspicion that a non-domestic user is responsible for illicit discharge to the sewer system and find that there is no evidence of such and that further steps toward regulation would not be necessary, this fee would not be charged.

⁵Cost of labor for consultation with GRSD Sewer Authority personnel regarding new pretreatment measures, next steps, etc.

⁶Cost of labor associated with compiling information regarding the non-domestic user for the respective year (including laboratory data, inspection forms, etc.) and creating an annual report summarizing that information.
